

24th ANNUAL ENERGY UTILITY ENVIRONMENT CONFERENCE – UPDATE FORSPEAKERS

I appreciate your patience and understanding as we adjust and finalize the EUEC 2021 Virtual Conference to cope with the impact of the pandemic on our conference and personal lives.

We have been notified that the usual EUEC 2021 Conference in San Diego, California cannot be held in-person. EUEC 2021 will now be a completely Virtual Conference.

Here are the changes being made to hold EUEC 2021 Virtual LIVE Streaming Conference.

1. We will not be doing our traditional in-person 2-day conference with 10 concurrent Tracks.
2. Instead, we will be holding two-day Virtual meetings for each track every month.
3. Speakers will present in the assigned Virtual Track meeting in the designated month
4. Ten tracks will be presented in 10 months from March to December 2021
5. Speakers make a LIVE 20-minute PowerPoint presentation remotely.
6. Virtual exhibit booths where delegates can schedule appointments, chat and meet with exhibit staff in networking lounges, and board rooms.
7. “LIVE” streaming speaker and exhibitor presentations will be recorded for playback and networking.

We will provide details of the Virtual Platform including instructions for testing speakers PowerPoint presentation before the conference. The LIVE presentation will be moderated with a private link on the platform. Technical help will be available during speaker’s LIVE presentation if needed.

We look forward to your comments and suggestions so we can collaborate to make EUEC Virtual Conference a success, that provides year-round networking and feedback for speaker’s presentation.

With Best Wishes for the New Year,

Prabhu Dayal, PhD, P.E.,
Chairman, EUEC
